

# Campervan Village NZ&AU

01.04.2025

## Area of Use

Thank you for choosing Campervan Village for your adventure! Your safety and the protection of our vehicles are our highest priorities, which is why we've established these important travel guidelines.

While we encourage you to explore the breathtaking landscapes of Australia and New Zealand, some areas may be off-limits, or temporarily restricted. This could be due to challenging road or weather conditions, extreme remoteness that would make vehicle recovery difficult, or other factors that could compromise your safety or damage our vehicles.

Before setting off on your journey, please carefully review our permitted areas of use. Understanding these boundaries will help you plan an amazing trip while avoiding unexpected complications or additional charges.

Please examine the maps and summaries below, and refer to our complete terms and conditions for detailed information about travel restrictions and requirements.

If you're unsure whether a specific destination is within our permitted areas, our experienced travel team is available 24/7 to provide guidance and assistance.

# Area of Use New Zealand
